

Bed Mounting -Split- 2 Legs

Super King Bolt Configuration

King Bolt Configuration

- 1 Position your bed away from the wall. Mount each headboard panel to the bed with the headboard bolts. Make sure the Leglock is between the headboard bolt and leg. Headboard bolts should be supplied with your bed. Please contact your bed retailer.
- 2 Once the headboard is in the correct position and the panels are tied together with the velcro, drill 3mm holes for the Leglocks and fasten the screws(supplied) through the Leglock securing the headboard in position.
- 3 Position the bed so the headboard rests against the wall.
